He plowed his 3-year old filly, hitched to a 14-tooth weeder. No harm was done to either the filly, the corn or the plowman, although the sun was hot and the filly worked to a plow for the first time. The field mice are troublesome. What few hills were missing were due in almost every case to these little rodents; there are complaints from other fields.

## JACKSON'S The REXALL Store,

## In a Kindly Neighborhood

"Yes, my property was burned, but my neighbors have looked after me, and I am now in as good shape as I was before my house burned."

The above is a very common saying, but a man need not impose upon his neighbors when the rates of insurance are so reasonable. Your neighbor may be insured and if he burns out you cannot repay what he has already done for you. He assumes no responsibility; why should you? A wise man insures his property; a foolish one carries his own risk. To which class do you belong? There is no middle ground. Write or call on me and I will convince you that the above is true.

FRED W. PENDLETON St. Clair Building TAZEWELL, VA.

## Do You Trust to Luck?

Some folks put the savings of years into a home and they rely on their luck to avoid a fire. Other folks invest their entire assets in a store or factory and take chances on having them wiped out over night. Do you? We insure all classes of property, and will take pleasure in writing a policy for you, no matter how small or how large.

We have the facilities.
